1. **ELIGIBILITY**: To be eligible for the benefits of this product warranty, the cooling system must have been treated with AutoLifeRx™ product. All covered components and all drivetrain components must be factory installed by the vehicle manufacturer. Prior repair or replacement of such components must have been completed by an ASE Certified Mechanic. Documentation will be required. Lift kits or oversize tires and wheels are not allowed.

2. **EXCLUSIONS**: Failure of a covered component, which occurs within the first ninety days (90) and 1,000 miles after the Start Date that appears on the above registration form will not be covered and will be considered a pre-existing condition. All vehicles must be in good mechanical working order for this product warranty to be valid. Oil consumption, worn out or overheated parts or diminished performance are not covered. This is not a performance warranty. Failures must be the result of a proven mechanical failure. This product warranty does not apply to diesel engines manufactured prior to 1990, Rotary engines, 4100 GM engines, Renault diesel and gasoline engines, Nissan 350, 300ZX, Mitsubishi 3000 GT, Dodge Stealth, 911, 928 or 930 Porsche, 12 cylinder BMW, Jaguar or Mercedes. Engines and vehicles used in commercial applications are excluded unless commercial coverage surcharge box is checked. Please call Administrator for specific clarification on such coverage and exclusions.

3. **MAINTENANCE REQUIREMENTS**: To obtain the benefits provided under this product warranty, it is the responsibility of the registered owner to:

- A) Properly install the product in the radiator overflow and return the registration form included with the product delivery.
- B) Change the engine oil and oil filter in the engine within sixty days (60) of limited warranty start date.
- C) Require that the engine oil and oil filter be changed by a commercial service facility every four (4) months or four thousand (4,000) miles thereafter, whichever occurs first. Proper documented and verifiable receipts for oil and engine oil filter changes will be required in the event of a claim. (Handwritten receipts will not be accepted)
- D) Continue maintenance of covered component(s) as outlined in vehicle owner's manual.

→ Service receipts and invoices must be presented in case of claim.

4. **COVERAGES**: This warranty is subject to the Terms and Conditions of this registration form and only provides coverage when purchased by the vehicle owner. In case of a failure of the covered components of the registered vehicle, the warranty obligation is limited to repairing or replacing defective parts with similar quality or kind components, including the replacement of all lost fluids. The limit of liability per covered vehicle is \$3,000.00 per engine and \$2,000.00 per transmission (in the aggregate). If a claim on either engine or transmission exceeds the actual cash value of the vehicle and the Administrator elects to pay the actual cash value of the vehicle, the vehicle becomes the property of the Administrator for salvage. In the event that the vehicle's repair cost exceeds the vehicle's Actual Cash Value (ACV) and the consumer agreeing to the ACV settlement the warranty will then be null and void from that point forward. In addition the Administrator will pay up to a maximum per approved repair for towing (\$75.00 per occurrence) and/or rental car (\$100.00 per occurrence) when authorized, in addition to any valid claim. New, used, remanufactured or like, kind and quality (LKQ) parts may be used in the repair of the vehicle.

5. **EXCEPTIONS**: This warranty will not apply to the following items: There is no coverage if the covered components have been abused or damaged as a result of a collision. There is no coverage if the covered components have been tampered with or altered after the original equipment manufacturer installation. Damage or abuse through towing, improper load capacity, or continued operation of an impaired vehicle or failure to follow the terms and conditions as outlined voids this warranty. Blown head gaskets, cracked heads or block, fluid leaks, leaking seals or gaskets or lines or hoses, overheating or other engine or transmission failures caused by the lack of fluids or improper maintenance are not covered. Breakdowns caused by contamination, lack of proper fluids or non-suitable fluids, fuels, coolants or lubricants, including a breakdown caused by the failure to replace seals or gaskets in a timely manner are not covered. Damage to the vehicle caused by collision, misuse, road conditions, negligence, alterations, racing, fires, floods, riots, acts of war, vandalism, theft or acts of God are not covered. This warranty does not cover such things as loss of use of the vehicle, loss of earnings, personal damages, per diem expenses, or any other consequential or incidental damages. Storage, medical, telephone or rental charges not specifically outlined in these terms and conditions are not covered. A reduction in operating performance due to normal wear and tear such as but not limited to oil consumption, guides, valves, rings, transmission clutch pack, discs and bands is not covered. This warranty is secondary to other manufacturer warranties or recall items. Vehicle driven to destruction will not be covered under any circumstances.

6. **CANCELLATION PROCEDURES**: If you cancel this contract within sixty (60) days after purchase, you will receive a refund of one hundred percent (100%) of the gross premium paid less any claims paid on the Contract and less and administrative fee equal to five percent (5%) of the gross premium paid by you. You have failed to maintain the motor vehicle as prescribed by the manufacturer; 3. The odometer has been tampered with or disabled and you have failed to repair the odometer. Reasonable access must be provided to the vehicle for warranty inspection. You will be required under this product warranty to authorize the repair facility to tear down the component(s) for inspection before repair or replacement of failed component(s). You will be required to pay the cost of the tear down if the mechanical breakdown is not covered by this product warranty. Have all required documentation prepared to submit to the Administrator: i.e.; a copy of this product warranty registration form, proof of maintenance of all covered components as outlined in Item 3 Maintenance Requirements, documented failure of any covered component, receipt for towing and/or rental car, if authorized.
